## "Text" Banners

Complete with pole, anchor, streamers and fabric bag.

Send a bold message at a reasonable price. Over 30 "stock" designs are available. Each package includes the Solar Max™ nylon banner - appliquéd, not printed - plus a 16.5 foot heavy duty pole, fiberglass anchor stake, streamers, and fabric storage bag. Colors changed at no additional charge.

Ask us about other text message feathers or design a custom text banner of your own.

All designs are protected by copyright law and may not be reproduced in whole or in part without written permission.

# Absolutely the best banner poles on the market!

Whether you need a portable pole for weekend use, a heavy-duty rod that will not collapse, or a durable commercial display tool, Windfeather has the ideal pole application.

## WINDSTINGER

**WindStinger** – a heavy-duty commercial banner pole featuring our exclusive modular stacking assembly. This pole cannot collapse even during extended use and there are no pesky caps and plugs to keep track of! Each section is numbered for foolproof assembly. Add an optional extension section to stretch the WindStinger to 20 feet!

WindStingers are more rigid and better suited to permanent banner or windsock displays.

- Assembles to 16.5 Feet
- Compact storage of 44.5 Inches
- Modular Assembly
- Cannot Collapse
- No Top and Bottom Caps
- Base Rotates With the Wind
- Deluxe Storage Bag
- Bright Yellow Finish

## WINDRULER

**WindRuler** – a tough 16.5 foot banner pole. Like the WindStinger, the WindRuler uses external modular connections and cannot collapse. However, the WindRuler is lighter and more flexible, making it ideal for traditional banner applications.

The WindRuler comes in a deluxe storage bag and there are no caps or plugs to keep track of.

- Assembles to 16.5 Feet
- Compact storage of 44.5 Inches
- Modular Assembly
- Cannot Collapse
- No Top and Bottom Caps
- Base Rotates With the Wind
- Deluxe Storage Bag
- Gunmetal Gray Finish

## TOURMASTER

**TourMaster** – a durable and dependable 16.5 foot telescopic pole. Specifically designed for portable banner display applications. The TourMaster collapses to just 24 inches for easy transport. It features 10 telescopic sections, a metal base cap, solid fiberglass top section, and a custom metal tip ideal for banners or windsocks.

- Telescopes to 16.5 Feet
- Collapses to 24 Inches
- Reinforced Top Section
- Heavy Duty Base Section
- Metal Base Cap
- Compact One-Piece Storage
- Bright Blue Finish

### Exclusive triangular stainless-steel wiretip.

Our stainless-steel triangular wiretip is patent pending for its simple but brilliant design. Extra strong for heavy-pulling applications, the flat top prevents pole punch-through on fabric banners. The extra-wide opening allows easy attachment of a windsock, kite, or streamers.

**Fiberglass Anchor Stake** – a solid ½ inch thick stake ideal for anchoring any of our banner poles. The 42 inch anchor has a tapered point to easily penetrate grass, sand, or dirt. The fiberglass flexes so that banners adjust to the wind and minimize any pole damage.

A Fiberglass Anchor Stake is included free with each Windfeather banner.
