Delta Kites

The kite of choice for most first-time fliers

SPOTLIGHT DELTA

Take center stage with a Spotlight! This is a smaller delta with a wide wind range and plenty of dramatic appeal.

- 6 Feet Wide 3 Feet Tall
- Soars High in Light or Strong Winds
- Matching Tails and Fabric Bag Included
- Ripstop and Fiberglass Construction
- Available in Purple, Yellow, or Red

FLYING LINES

Most of our Deltas come without flying line. That's because many kites already have line or many stores prefer to sell it separately. But we'll happily add line and a winder to any kite package for a small additional charge.

- Durable Plastic Winder
- 200 Feet Twisted Polyester Line
- 60 Pound Strength
- Tied To The Spool

RAINBOW DELTA KITE

This classic delta will soar on even the lightest breezes. The ripstop nylon fabric will stay bright for years and the tough fiberglass frame is almost indestructible.

- 6 Feet Wide and 3 Feet Tall
- Line and Tail Included

.....

All our Deltas come with tails. But you can easily add extra tails for more fun. Our Ribbon Tails on page 19 are perfect! They come in sets up to 15 feet long and are made from tough ripstop nylon. Each "ribbon" is fully hemmed with a reinforced eyelet.

Our deltas are designed with an easily removable center spine. **Leading edge spars are stitched in place so they cannot ride up into the nose.** That means the kite can pack down small, but you never see a partly-assembled kite in the air with floppy wing tips.

.....

SEVEN FOOT DELTAS

Our 82 inch Deltas go together easily and soar in a variety of wind conditions. All ripstop and fiberglass construction means bright colors and durability. We include two fabric tails with each kite.

- 7 Feet Wide and 3.5 Feet Tall
- Two Fabric Tails Included
- Multiple Tail Connection Points
- Fabric Bag Included

Lightweight Performance Deltas

For More Serious Fliers

FALCON DELTA

The Falcon is our best delta - over ten feet wide – that flies at an exceptionally high angle and in an unusual range of winds. We built it tough, with a carbon frame, molded fittings, and a lightweight ripstop nylon sail.

- 10.5 Feet Wide and 5 Feet Tall
- High Angle Flier
- Exceptional Wind Range
- Lightweight Ripstop and Carbon Construction

Design features include a high-aspect-ratio profile, an extended billowing keel, and a Velcro center spine attachment that allows the kite to be stored at just 60 inches.

ZENITH

The Zenith will fly well in light or strong winds, develops uncommon lift for a delta, and in breezes over 5 mph will lock-in almost directly overhead. It is a larger Delta, 7 feet wide and 5 tall with an almost symmetrical lower-aspect-ratio shape.

- 7 Feet Wide and 5 Feet Tall
- High Angle Flier
- Pocket Keel and Adjustable Bridle
- Lightweight Ripstop and Carbon Construction
- Exceptional Wind Range

Design features include an abbreviated “pocket” keel and adjustable bridle line. The keel will slightly inflate to keep the kite from over-flying. We built the Zenith tough with a carbon frame, molded fitting, and a lightweight ripstop nylon sail.

These are great light wind kites for recreational flying, but also practical flying tools for lifting cameras or training raptors.

Butterflies, Birds, and Bugs

FLOCK OF SWALLOWS

A great flight experience from New Zealander Robert Van Weers. You get six kites, each attached to the main flying line on an independent tether. The result is a dynamic and realistic flying show. Connect several sets together for a super flock!

- 6 Kites in Each Set
- Rainbow Colors
- Each Kite 2 Feet Wide and 1.5 Tall
- Complete with Bridles and Tether Line
- Fabric Storage Bag

LARGE SWALLOW

A single 5 foot kite. Fly it alone or build a stack.

- Each Kite 5 Feet Wide and 2.5 Tall
- Fly Individually or Build a Stack
- Fabric Storage Bag
- Available in Red, Yellow, Purple

BUTTERFLIES

The sails glow in the sun. Wings flex with each shift of the wind. Tails flutter behind. Whether you fly them or use as room decorations, our Butterfly Kites are a bunch of fun!

- 31 Inches Wide and 28 Inches Tall
- Line and Tails Included
- Flexible Frame for Realistic Flight
- Available in Red, Yellow, Blue, or Purple

BUGS!

These 3D ground bouncers inflate through side flaps and quiver as the wind blows around them.

- 2 or 4 Foot Size
- Wind Inflated
- Completely Soft Design
- Child Tolerant
- Available in Red, Yellow, Blue or Purple

Popular Pyro Deltas

Exclusive GKPI designs from Frank Schwiemann and Christine Schwarting

The elegant Pyro Deltas of Germany are easy to fly and proven crowd pleasers. Our shimmering taffeta tails have been engineered to minimize tail wrap and maximize performance. They float on the lightest breezes for a maximum show at a minimal price.

FISH PYRO DELTA

Thirty feet of aquatic fun! The classic Fish Pyro features dramatic flowing tails and striking graphics.

- 9 Feet Wide and 30 Feet Long
- Bold Modern Graphics
- Engineered for Minimal Tail Wrap
- Fabric Bag Included
- Available in Warm or Cool Colors

GHOST DELTA

Dominate the sky with these big deltas and their long flowing tails. The secret is the lightweight taffeta tail that lets Ghosts float on the lightest breezes.

- Two Popular Sizes
- 7 Feet Wide with 21 Foot Tails
- 11 Feet Wide with 30 Foot Tails
- Stable and Stately even in Light Breezes
- Red, White, Blue, Gold, Purple, or Black
- Fabric Bag Included
- Fun to Fly at Night Too!

Ghosts are designed for all kinds of wind and will also lift tube tails and line art. Put a white one up at night and you'll quickly see why people call them "ghosts".

Genkis

Stability and High Flight Angle.

In Japan when you ask people how they are doing, you ask if they are “genki”. If they are doing well, the polite answer is “totemo genki!”

Fly our Genkis and you’ll be doing well too! The Genki design offers exceptional stability, a high flight angle, and great light wind performance.

SUPER GENKI

Stunning prism graphics create a colorful presence that is impossible to miss in the sky.

- 13 Feet Wide and 4 Feet Tall
- Ripstop and Carbon Construction
- Multiple Tail Connection Points
- Fabric Bag Included
- Available in Rainbow, Warm, and Cool Prism

TRANSITION TAILS

We call these colorful flat tails “Transition Tails” because the color emphasis changes. See page 17 for more details.

- Choose 3 or 6 Foot Long
- Swivel Included
- Use it on a Kite, Line, or Pole
- Available in Primary, Warm, Cool, or Patriot

SPIKEY BALL

It is big, billowy, and covered in spikes! No wonder this wild windsack is our most popular line art design.

- Available in Red, Yellow, Blue, Purple or Rainbow
- 12 Feet Long and 3 Feet Wide
- Decorative Windsack
- Use on a Kite, Line, or Pole

CHAIN TAILS

One of the most creative and unique pieces of line-art available. Air flows through and inflates this ten foot inter-connected tube. Each link is two feet long and one foot wide.

- Six Connected Links
- 10 Feet Long and 2 Feet Wide
- Available in Rainbow
- Ask for Custom Colors or Sizes

TRIPLE PILLOW

Triangular sections inflate to create a unique decorative windsack bursting with color.

- 12 Feet Long
- Use on a Kite, Line, or Pole
- Available in Red, Yellow, Blue, or Purple

SPINNING WINDSOCK

We've taken the classic spinning windsock in our elegant diamond sail pattern and added something — spikes!

- Choose 6, 12, 18, 30, or 50 Feet
- Available in Rainbow or Custom Colors
- Choose With or Without Spikes

LIGHTENING BOLT

PIRANHA DROGUE - 2 FT

A dramatic decoration for your kite, line, or pole. Larger sizes available.

- 2 Foot Mouth-Span
- Fully Bridled with Swivel Clip
- Red, Yellow, Blue, or Purple

HELIX TAIL

The rigid paddles rotate in the wind, twisting three flowing tubes into a whirling corkscrew of color. Fabric bag included.

- 3 Feet Wide
- Includes 3 Tubes, 20 Feet Long
- Made in Rainbow with Black Accents

RAINBOW CUBE TAIL

Inflated squares with holes cut out of the middle?? Outrageous!!

- 6 3-D Cubes in Rainbow
- 15 Feet Long and 2 Feet Tall
- Ask for Custom Colors and Sizes

STAR TUBE

Dramatic line laundry in bright colors!

- 8 Feet Long
- Rainbow Star with Black and White

Streamers and Tubes

SNAKE TAIL

A big, bold tube that compliments any kite. Black and white stripes with a long colored end section.

- 55 Feet Long and 10 Inches Wide
- Easily Lifted by Most Kites
- Dramatic Stripes and Colors
- Available in Red, Yellow, Blue, or Purple

STREAMER TAIL

It is one long shimmering piece of fabric — perfect to attach to a kite, line, flagpole or even the mast of your yacht. Each Streamer is designed with two tabs at the top for easy attachment.

- Fully Hemmed
- Available in 150, 75 or 35 Foot Lengths
- Shimmering Lightweight Nylon Fabric
- Reinforced Tabs for Easy Connection
- Great for Single or Dual Line Kites
- Red, Orange, Yellow, Green, Blue, Purple, Black, or White

PENNANT FLAG

Bright colors with a dramatic profile. Each Pennant is 25 feet of shimmering nylon fabric with a black outline. Completely hemmed, abuse-tolerant, and fade resistant. They are designed with two tabs at the top for easy attachment.

- Shimmering Nylon Fabric
- 3 Feet Wide and 25 Feet Long
- Fully Hemmed
- 2 Tabs for Easy Connection
- Dramatic Black Outline
- Red, Orange, Yellow, Green, Blue, Purple, or White

The leading edge of our Streamers and Pennants is designed so you can insert a rod or stiffener. A four foot piece of line makes a simple bridle. We don't provide spars or bridles because some fliers don't want them. But you have the option of flying soft, or as a more rigid flag.

Transition Tails

Available in three sizes and nine colors.

TRANSITION TAILS

These colorful flat tails have long been a favorite kiting accessory. You can hang them on a line or attach them to the kite. For more fun, hook one on a long pole and whirl it around.

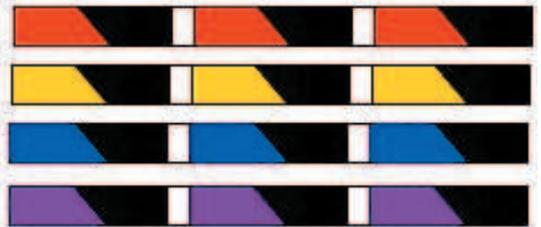

We call them Transition Tails because the color emphasis changes across the length of the tail. It makes a “transition”.

Each contains 60 pieces of durable ripstop nylon stitched together. There is a swivel on one end and a loop on the other so you can easily attach them to your kite or connect several together.

Transition tails are available in three sizes and a variety of colors.

- 24, 48, and 96 Foot Sizes Available
- Swivel and Connection Loop

Available in Red, Yellow, Blue, or Purple

Economical Tubes and Tails

A Great Collection of Line Decorations.

Our tubes and tails are designed to dress-up any kite. Durable fabric, reinforced connection points and convenient clips make them long-lasting and easy to use. Connect several together for extra impact.

DIAMOND TAILS

Each ripstop square has a stitched border for more durability

- 12 Feet Long
- 24 Reinforced Diamonds
- Swivel Included
- Connect Several Together
- Warm, Cool, Rainbow, or Patriot

TUBE TAILS

Twenty foot long tube, three inches wide, with a tab at the end so you can connect several together.

- 20 Feet Long and 3 Inches Wide
- 6 Colorful Sections
- Swivel Included
- Rainbow, Warm, Cool, Patriot

SKYWRITER RIBBONS

Leave a trail in the sky! Our long ribbons are made from tough nylon sailcloth and will add excitement to any kite. Use them to accent a traditional kite or for "skywriting" with maneuverable kites. Each ribbon is 3 inches wide, hemmed for durability, and constructed with a reinforced eyelet.

45 Foot Solid Ribbons:

Available in Red, Orange, Yellow, Green, Blue, Purple, White, or Black.

100 Foot Multicolor Ribbons:

Available in six color combinations.

- Rainbow (red/or/yell/green/blue/purple)
- Miami (blue/purple/black)
- Phoenix (red/yellow/black)
- Warm (red/orange/yellow)
- Cool (purple/blue/green)
- Patriot (red/white/blue)

RIBBON SETS

Made from tough nylon ripstop, each “ribbon” is fully hemmed with a reinforced eyelet. Easily separate sets to spread individual ribbons along a flying line.

- Metal Attachment Clip
- Fully Hemmed and Reinforced
- 6 Ribbons - 7.5 Feet Long (Rainbow or Patriot)
- 3 Ribbons - 15 Feet Long (Warm, Cool, Primary, or Patriot)
- 6 Ribbons - 15 Feet Long (Rainbow or Patriot)
- 5 Ribbons - 7.5 Feet Long (Neon)

FUZZY TAIL

Super efficient tails - the more you fly them the better they work!

- 15 Feet Long
- 100 Fabric Fringes
- Connection Loops at Both Ends
- Red, Yellow, Blue, Purple, Black, White, or Rainbow

CIRCLE TAILS

Decorate a kite, flying line, or pole.

- 12 Feet Long
- 18 Reinforced Circles
- Swivel Included
- Connect Several Together
- Warm, Cool, Rainbow, or Patriot

Ribbon Sets are our best add-on value. They're fully hemmed, reinforced, and easy to use. Choose from four different sizes — each priced well below any other ribbon on the market.

Boxes Roks and Rollers

EXTENDED WING CODY

Here's a modern replica of a great historical kite! Our Extended Wing Cody is built tough with all of the design details you expect in an advanced kite. As the name suggests, the wings are longer and the added third "deck" provides more stability as well as an opportunity to use a contrasting sail color.

- 8.5 Feet Wide and 4 Feet Tall
- Multiple Tension and Support Lines
- Ripstop Sailcloth and a Carbon Frame
- A Rugged Historical Replica
- Fabric Bag Included

Red Yellow Blue Purple Black

SHANNON ROLLER

A dramatic Roller design with a bold, original profile. Rollers are excellent fliers. They handle like a rokkaku, but have the added stability of a keeled delta. The result is lift, performance and stability.

- Excellent Flight Performance
- Bold Graphics
- 5 Feet Tall and 4 Feet Wide
- Fabric Bag Included

Purple Yellow Red

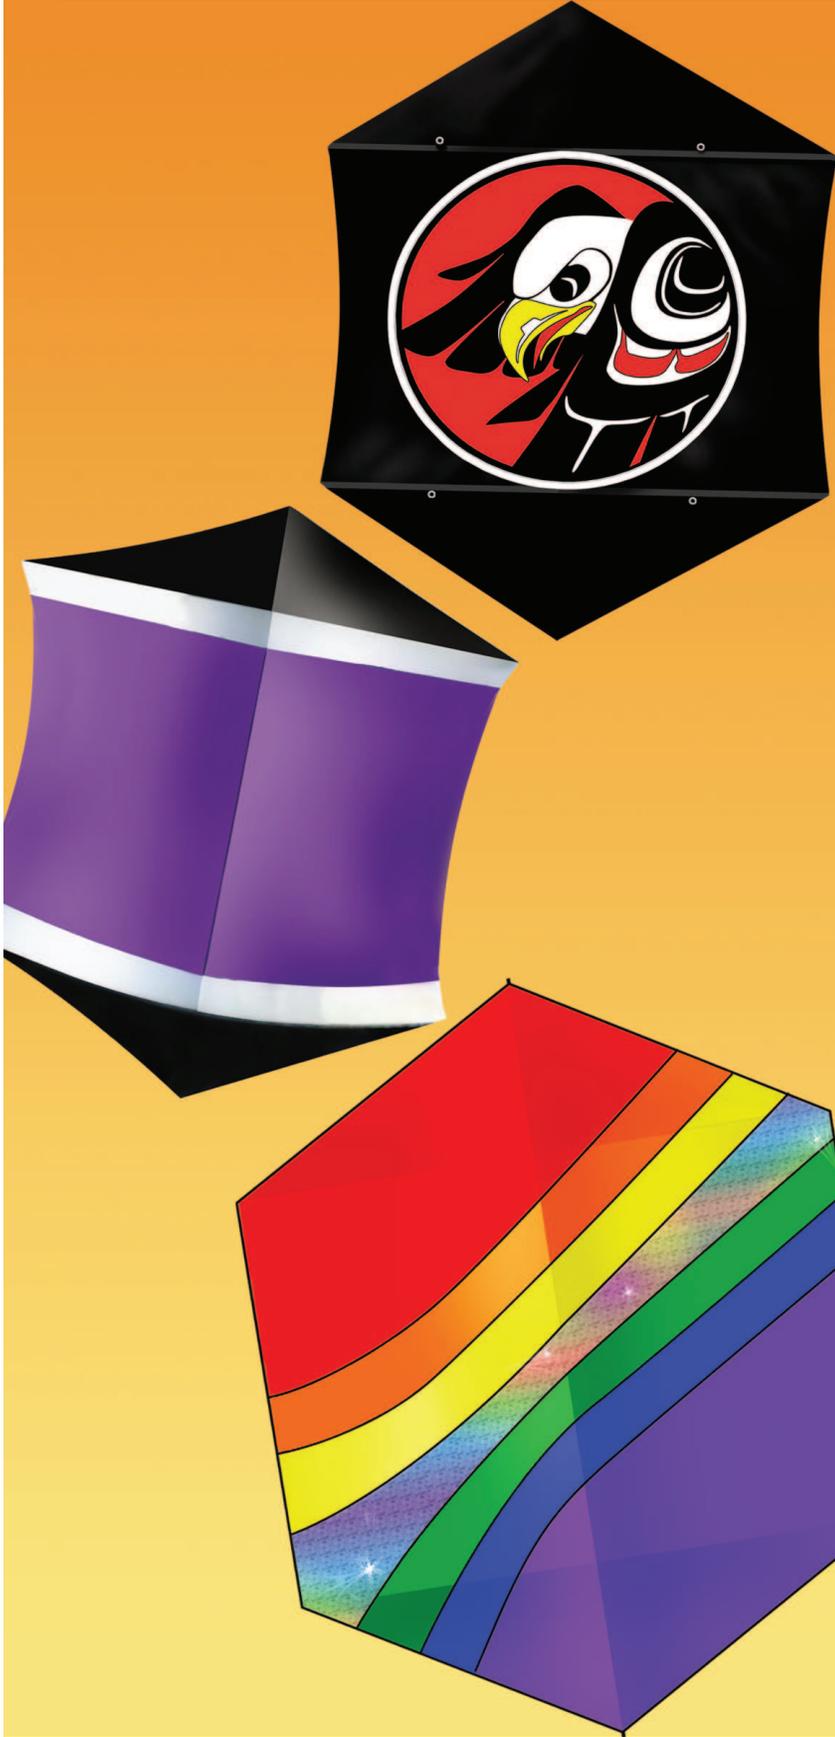

BROOXES BOX

Every kite collection needs a box kite. And this is a great one! Brooxes Boxes are rhomboid in design. That means they are wider than they are deep. This gives the kite extra lift, making it possible to fly in lighter winds than usual for cellular kites.

- Classic Cellular Design
- 4 Foot by 4 Foot by 2 Foot
- High Flight Angle
- Ripstop and Fiberglass Construction

GOM-KAKU

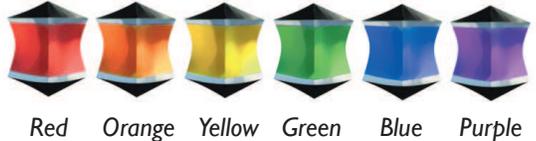

In Japan, teams often put their individual crests on their fighting kites. We decided to do the same! The "Gom-Kaku" is fully appliqued, six feet tall, and light framed so it will stay in the sky when the opposition is struggling to stay aloft.

- 6 Feet Tall
- Lightweight Frame
- Great for Fun or for Fighting!

ROKKAKU

Take a new look at the classic fighting kite of Japan. The stability of this modern Rokkaku makes it great for fun flying, lifting, or fighting.

- 5.5 Feet Tall and 4.5 Feet Wide
- Durable Fiberglass and Ripstop Construction
- Great for Fighting or Fun Flying!

Looking to spice up your event? Consider our Kite Battle Package. You get ten battle-ready Rokkakus, 10 spools of 150 pound line, and complete fighting instructions. You won't find a better way to draw bystanders onto the field and get them excited about flying!

SUNCATCHER ROKKAKU

Looking for big fun? Here's a big kite to find it with! The stability of this modern Rokkaku makes it great for fun flying, or lifting cameras. Larger kites are excellent for experienced or more advanced kites. We've added a "suncatching" mylar panel for a dramatic appearance in the sky.

- Traditional Japanese Design
- 7.5 Feet Tall and 6 Feet Wide
- Tough Nylon and Carbon Materials
- Reflective Mylar Panel

Traditional Rokkakus

Take a new look at the classic fighting kite of Japan.

The hexagonal Rokkaku Kite was originally developed for traditional kite fighting in Japan. Kites flown by teams would tangle, tip, or crash together and the last kite in the sky was the winner.

Our Kabuki Rokkakus are based on a series of traditional kite images from Japanese history, literature, and folklore. The stability and convenience of this modern Rokkaku make it great for fun flying, lifting, or fighting. Adjustable bow lines allow tuning for different winds.

- Traditional Japanese Design
- 4 Feet Tall and 3 Feet Wide
- Tough Nylon and Fiberglass Materials
- Great for Fighting or Fun Flying!

TUKINAMI

Tuki means "push" and nami means "wave". This popular illustration shows the water splashing before the sun.

WATONAI

Watonai is the hero of a famous Joruri or puppet play which was popular in the Edo period.

KOI

In Japanese culture, the Koi represents strength, courage and success in life. On Children's Day in May, Carp windsocks are flown from each home.

SUKEROKU

Sukeroku is a famous Kabuki hero who challenged the rich upper classes and was very popular with the common people -- especially women.

In Japanese, a "kaku" is a kite with corners. "Rok" is the word for the number six. "Roks" fly well in all winds and are excellent for intermediate or advanced fliers.

Advanced Flying Machines

MARCONI

The Marconi will dance at the end of your string with so little pull, you'll have to check to make sure it is still there!

- Futuristic Flying Design
- Built-in Stabilizing Keel
- Tough Ripstop and Carbon
- 4 Feet Wide and 4 Feet Tall
- Fabric Bag Included
- Available in Red, Yellow, Purple

WILSON WING

An original floating wing design lets this intricate kite soar on the lightest breezes. Adjustable lines from the body support the wing on a rigid spreader. You tune with a unique tension system built into the fuselage. And at the end of the day, the kite breaks down into a five foot bag.

- Award-winning High Tech Design
- Adjustable for Changing Winds
- Ripstop and Carbon Construction
- 9 Feet Wide and 5 Feet Tall

Lifters and Streamers

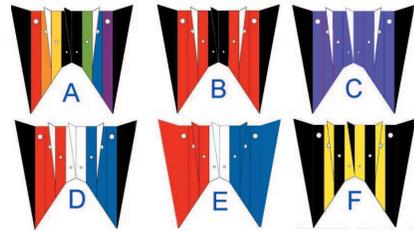

SKY-FORM

Our G-Kite Sky-Form is a stable and reliable flowform design. They generate less vertical lift than parafoils. But they also have a wider wind range and less complex bridle.

It is an ideal lifter for our Giant Streamer.

- Stable and Reliable Lifter
- Choose from Six Designs
- Available in Custom Colors
- Available in 60 and 120 square feet
- Great for Line Art or Inflatables

Your choice of patterns and colors.

GIANT STREAMER

These enormous fabric tails are ideal for stabilizing flowforms or parafoils. They turn a static kite into a spectacular show. Each piece is made to order from shimmering lightweight nylon in your choice of colors.

- 5 x 50 ft (for Pilot 50, G-Form 60, or Sutton 60)
- 7.5 x 75 ft (for Pilot 90, G-Form 120, or Sutton 125)

Pilot Parafoils

A serious lifter for any application.

PILOT PARAFOIL

Easy to launch, stable in flight, and reliable in almost any wind — Pilots are perfect for lofting line art, tails, or supporting other inflated kites.

This is a big, steady lifter with large billowing cells that inflate easily. We offer three sizes — a 50 square foot model, a hefty 90 footer, or the huge 140 square foot kite. No tail or drogue is needed, although you can easily add one for more fun.

- Pilot 50 (6.5x7 ft - use #200-300 line)
- Pilot 90 (9x10 ft - use #300-500 line)
- Pilot 140 (11.5x12 ft - use #500-750 line)

Pilots are now available in three design options – the traditional Solid, the colorful Striped, or the patriotic USA model. Choose a stock design or ask about custom colors.

Inflatables from Peter Lynn

GKPI inflatables designed and licensed by Peter Lynn.

Peter Lynn of New Zealand continues to amaze everyone with his giant 90 foot inflatables. Gomberg Kite Productions is pleased to be the exclusive distributor of the larger showpieces and we have added several of the more popular "smaller" sizes to our G-Kites series.

Note that inflatables perform better when used with a lifter kite. They are fun to fly from a pole too!

OCTOPUS

A long time flying favorite. Realistic form and movement with added features for stability and appearance.

- Choose 12 Foot or 20 Foot Sizes
- Inflatable 3-D Design
- Cupped Suckers and Bubble-Eyes
- Fabric Bag Included
- Red, Yellow, Blue, Purple or Custom

GECKO

Maximum impact in a smaller inflatable. Realistic climbing motion and fantastic eye catching presence.

- 20 Feet Long
- Independent Movement in Legs
- Fabric Bag Included
- Red, Yellow, Blue, Purple or Custom

PENGUIN AND DUCK

A delightfully appealing yet simple design. Flies great and handles a good range of wind conditions. Big fun in a compact kite design.

- 6 Feet Tall
- Sparless Construction
- Fabric Bag Included

Softies

Line and Winder Included

On a Softie, there is nothing to assemble and nothing to break. Just pull it out of the bag, stretch out the bridle lines, and pop it into the air. Then stand back and watch these whimsical kites attract smiles.

- Completely Portable
- 50 Inches Wide and 70 Inches Tall
- Convenient Sparless Construction
- Line, Winder, and Fabric Bag Included
- Durable Nylon Sailcloth
- Dances on Light or Strong Winds

Softie kites are shaped by the wind through seven inflation vents. They measure about 25 square feet and fly without sticks or a tail.

ZIG ZAG

(6.5 foot wingspan)

The Zig-Zag does it all! This is a larger wing sport kite that is big enough to generate solid pull, but still offers easy, precise control. Responsive enough to satisfy intermediate and advanced fliers. Strong enough for the punishment handed out by a novice too.

- Solid Pull - Responsive Control
- Big 6.5 Foot Wingspan
- Ready for Trick or Precision Flying
- Line and Handles Included

COMET

(4.5 foot wingspan)

The Comet is designed as a quick, durable kite ideal for beginners or a fun day of kiting. We've included a long tail to add to the fun! Skywrite a message in the sky!!

Smaller kites fly faster and pull less. They are great fun to fly and excellent first kites. The tail will slow velocity to make learning easier. Shorten or remove the tail as you get better!

Diamond Wing Stunt Kites

Drive a big stunt kite around the sky for a fun and a surprisingly physical experience!

These are maneuverable kites that you pilot through the air with two flying lines. We've made them tough, forgiving, and easy to handle. Beginners will enjoy the fast learning curve while more experienced fliers will appreciate the unique diamond-wing performance.

Long fabric tails add to the show as you sky-write with each turn or loop.

Add several kites together in stacks for a spectacular presentation. We've included detachable train lines and a quick pigtail connection system.

STARBURST

The Starburst is designed with a heavy frame for durability and stronger winds. Best performance will be in 7 to 17 m.p.h. of wind.

Red Orange Yellow Green Blue Purple

- 4 feet Tall and 3 Feet Wide
- 45 Foot Fabric Tail Included
- Easy to Stack
- Train Lines and Fabric Bag Included

SKYWRITER RIBBONS

Leave a trail in the sky! Our long ribbons are made from tough nylon sailcloth and will add excitement to any kite. Use them to accent a traditional kite or for "skywriting" with maneuverable kites. Each ribbon is hemmed for durability, and constructed with a reinforced eyelet.

45 Foot Solid Ribbons:

Available in Red, Orange, Yellow, Green, Blue, Purple, White, or Black.

100 Foot Multicolor Ribbons:

Available in six color combinations.

- Rainbow (red/or/yell/green/blue/purple)
- Miami (blue/purple/black)
- Phoenix (red/yellow/black)
- Warm (red/orange/yellow)
- Cool (purple/blue/green)
- Patriot (red/white/blue)

FLYING LINES - 100 feet, Pre-Sleeved

Available added to any sport kite or sold separately.

TEMPTATION AND FIREFLY

(Full size 7.25 foot wingspan)

The Temptation and Firefly were designed to do all the latest tricks, but in an easy manner that gives beginners, intermediate and skilled fliers a great flying experience. They also provide stable, predictable forward flight with superior speed control.

TEMPTATION

FIREFLY

CHARISMA

(Moderate 6.5 foot wingspan)

Charisma was designed as a well-rounded freestyle and performance kite. The slightly smaller wing size reduces pull and improves control with less physical effort.

CHARISMA

The Temptation, Firefly, and Charisma were designed by Kevin Sanders of Australia.

THE GULL

(Large 8.5 foot wingspan)

Kite experts looking for reliability, smooth flight, and a wide performance range have embraced the Gull. Designed by Gary MacEachern of Oregon, the Gull has over 12 square feet of sail area but weighs a mere 10.5 ounces. The result is a large and graceful sport kite that easily produces smooth turns and straight lines. Ideal for ballet, precision, or fun flying.

Soft Stunters

Fast and powerful maneuverable airfoils

RUCKUS

Looking for great flying fun?? Raise a Ruckus! This is a high performance, maneuverable airfoil kite. It flies fast, pulls hard, and turns quick. The Ruckus is definitely a great workout in stronger winds.

- Fast and Responsive
- Collapse Resistant
- Ripstop Construction
- Lines and Straps Included

The Ruckus was designed to be easy to launch, fun to fly, precise, and collapse resistant.

Available in three sizes:

Model 0.5:	42 x 20 in.	75 ft of 50 lb line
Model 1.0:	60 x 30 in.	75 ft of 150 lb line

RIOT

Fast, powerful, and responsive -- it's a Riot of fun!

- Remarkable Power
- Fast and Responsive
- Collapse Resistant
- Vented Leading Edge
- Lines and Straps Included

You will get remarkable pull from these quick dual-line airfoils. The partially closed leading edge makes them faster and more powerful than other soft stunters. Use a Riot for traction or kitesurf training, or just for fun on a breezy day.

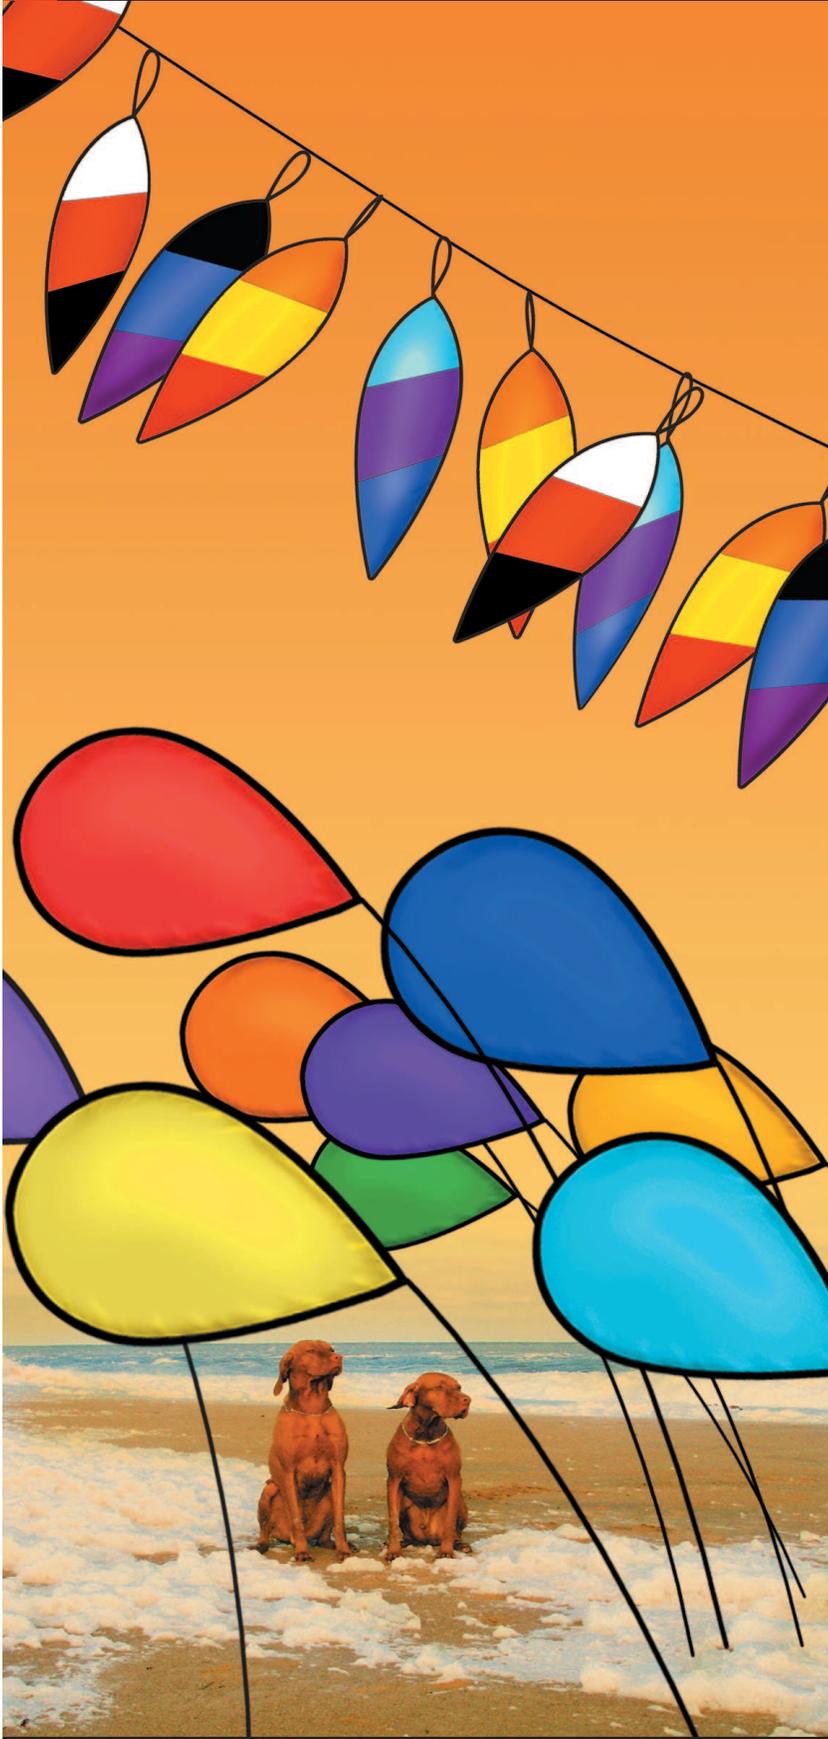

Available in three sizes:

Model 1:	71 in. / 1.8m	75 ft of 140 lb line
Model 2:	86 in. / 2.6m	75 ft of 200 lb line

DIABLO

Completely Soft - Completely Safe - Completely Fun!!

The Pequeño Diablo (Little Devil) is a unique inflatable kite from the Gonzalez Brothers of Spain.

There is nothing to assemble and nothing to break. Just pull it out of the bag, stretch out the bridle lines, let the wind fill the shape, and pop it into the air. Then stand back and watch these whimsical kites attract smiles.

The Diablo measures 3 feet wide and with the attached tails, is 9 feet long. For maximum performance, use a litfer kite.

Perfect for spontaneous kiting, inflatable kites fold down efficiently. Keep one in your car, your back-pack, picnic basket, or your drawer at work. Easy to fly for kids and grown-ups too! Flying line and a winder are included. Fly in 5-20 mph of wind.

- Completely Portable
- Durable Nylon Sailcloth
- Line and Winder Included
- 3 Feet Wide and 9 Feet Tall
- Convenient Sparless Construction

“GKPI” is a kite product manufacturer, distributor and retailer based on the Central Oregon Coast. We’ve been in business since 1986. Principals David and Susan Gomberg are accomplished fliers and international travelers who specialize in larger “show” kites and custom accessories.

G-KITES is a collection of kites and accessories intended to appeal to a range of kite consumers. Whether you are a beginner or an advanced flier, we have something you will enjoy. These designs originate from some of the best experienced and creative kites in the world. They are then tested for ease-of-flight and durability to make their use successful and fun.

Visit us on the web! Our primary web page at www.GombergKites.com contains the largest collection of show kites and line art available in the industry. We also offer custom colors, lots of choices, and tons of information. We specialize in customer service and customer support because that's what large custom kites are all about.

But if you are looking for simplicity, easy navigation, and a quick shopping cart experience, then www.GKites.com is ready to help you 24 hours a day.

At Gomberg Kites, we're committed to kiting, the kite community and to kite-fliers like you. We look forward to hearing from you soon!
